Say Yes to
Your
Destiny**

— Thema Davis

Distracted driving is anything that diverts your attention away from the task at hand – driving

Manual

- Eating
- Drinking
- Grooming

Cognitive

- Talking on your phone (handheld and hands-free)
- Daydreaming

1 in 42 crashes in Oklahoma involves electronic device distraction

OHSO 2016 Electronic Distracted Driving Data:

- 11 fatal crashes
- 662 injury crashes
- 1,047 non-injury crashes

Research indicates cognitive distraction persists long after using voice commands to make a call or send a text.
