

## Designated Driver is a Friend for Life

### Sobering Statistics

- 27.5% of fatal crashes were alcohol-related
- Four times as many male drivers as female drivers had an alcohol-related driving incident
- 75.8% of people killed in alcohol-related crashes were unbelted

– Oklahoma Highway Safety Office, 2016 data

#### What choices do you have?

- Plan ahead for a sober ride home.
- At a party, ask if you can stay overnight.

#### What changes when you are impaired?

- The first ability affected is judgment. For some, it only takes one drink to impact decision-making.
- Reaction time, depth perception and coordination can be compromised.
